

critical art is under attack this is not a drill.

On May 30, members of the performance art collective Critical Art Ensemble were subpoenaed by the FBI. The FBI is planning to indict Steve Kurtz, a member of CAE before a grand jury on June 15, on completely unfounded charges related to bio-weapons. CAE is under investigation for their use of ordinary scientific equipment to produce art projects that generate public discussion about biotechnology.

**Join the demonstration against this attempt
to silence creative and critical speech.**

When: 9am June 15, 2004

**Where: Mahoney Federal Court House
Court St., Buffalo, NY**

Your help is needed to fight against
the criminalization of their work
and for your free speech.
